

# Tyrannosaurus Rex

**Tyrannosaurus Rex, or T-rex, was one of the biggest dinosaurs that ever lived.**

**This is how tall a human is compared to a T-Rex**

**T-rex was a meat-eater. It had a very powerful jaw to crush the animals it hunted.**

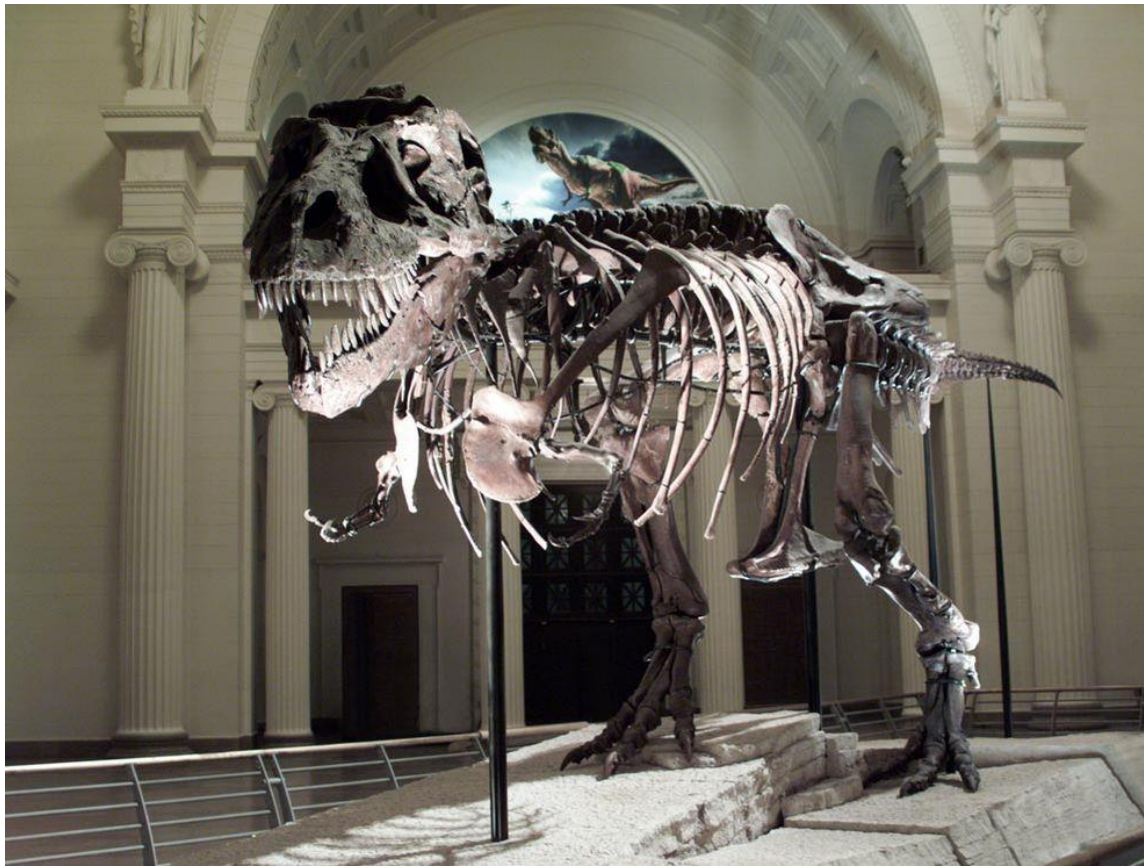

**T-rex had very strong and long legs and a very powerful tail which helped it move quickly.**

**T-rex had 2 fingers on each arm to help in catch its prey but T-rex couldn't use its arm to put the food into its mouth because the arms were too short.**

**Scientists don't really know exactly what colour dinosaurs were because humans didn't exist when dinosaurs were alive.**

**Paleontologists are the scientists who dig for dinosaur fossils in the ground. The first fossils of T-rex were discovered over 100 years ago.**

# What facts can you remember about T-Rex?
